September Newsletter

Hello and welcome to our September newsletter for the 13th International European Academy of Design Conference - Running with Scissors - Dundee, Scotland.

There's lots to be excited about! EAD2019 Dundee introduces a new and expanded range of formats in which design and associated research can be presented. The opportunity to submit Papers is now closed, but **we are looking forward to receiving your submissions for Posters, Positioning Papers, Research Proposals, Workshops and Walks.**

Call for Posters

If you are an early career researcher, PhD student, new commercial designer or new academic starting to explore a new research area or wanting to discuss an emerging idea, then how about a poster proposal? Click [here](#) and download the submission template.

Call for Positioning Papers

This is a new category, intended for experienced, more senior design researchers than PhDs, post-docs and early career researchers. A Positioning Paper is a short piece that articulates a well-supported philosophical or other position in polemic form. Click [here](#) and download the submission template.

Call for Research Proposals

We invite you to propose a research project that exploits the possibilities the Conference represents: it will bring together a huge resource of international design researchers giving you the opportunity to undertake research interventions, observations or other activities, as an integral part of the conference. Click [here](#) and download the submission template.

Call for Workshops

What benefits would you and the delegates gain from a 90-minute workshop? Would leading a workshop enable you to validate research, try out a new approach or collaborate on the construction of something new? We would love to hear your proposal. Click [here](#) to download the submission template.

Call for Walks

The associated history of walking with philosophy, health, learning, thinking, resolving and daydreaming is well documented, so walks are part of Running with Scissors. Walks will be an opportunity to take your research and interests out into nature or the built environment, hosting an open-air discussion and/or debate around a topic of interest. Click [here](#) to download the submission template.

SUBMISSIONS OPEN UNTIL 28 SEPTEMBER 2018

Once you're ready, go to [ConfTool](#) to register your details and submit your contribution.

We know about the Conference, you know about the Conference but let's be sure everyone knows about it! Please share across your social media.
