

Eddleston Water Project Monthly weather and hydrology report

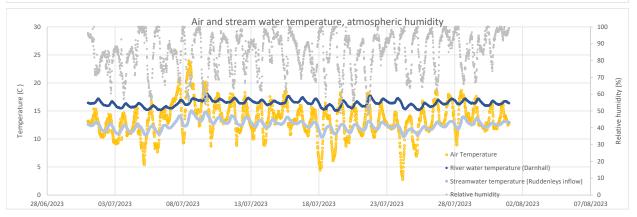

July 2023

| Monthly statistics | Hourly values | | Daily values | | | | Month | |
|--|-----------------|----------------|--------------|-----|------|-----|---------|-------|
| | Max Day/time | Min Day/time | Max | Day | Min | Day | Average | Total |
| Precipitation (Darnhall Mains) (mm) | 6.6 15 @ 19:00 | | 11.2 | 9 | | | | 103.4 |
| Precipitation (Craigburn Farm) (mm) | 23.2 04 @ 16:30 | | 32 | 4 | | | | 110.4 |
| Precipitation (Wester Deans) (mm) | 12.8 04 @ 16:30 | | 18.4 | 4 | | | | 86.8 |
| Precipitation (Ruddenleys) (mm) | 5.4 04 @ 16:45 | | 11.4 | 30 | | | | 89.4 |
| Precipitation (Nether Kidston) (mm) | 6.8 04 @ 17:30 | | 13.2 | 4 | | | | 111.8 |
| Precipitation (Burnhead) (mm) | 5.8 15 @ 19:00 | | 13.2 | 31 | | | | 110.4 |
| Runoff depth (Darnhall Mains) (mm) | | | | | | | | 20.7 |
| Air temperature (Darnhall Mains) (C) | 23.7 08 @ 11:00 | 3.0 24 @ 04:30 | 18.1 | 8 | 10.1 | 24 | 13.4 | |
| Relative humidity (Darnhall Mains) (%) | | | | | | | 84.4 | |
| Sunshine hours | | | | | | | | |

A fairly typical July. Rainfall almost double the preceding month, but close to long-term average for July. Rainfall patchy across the catchment, befitting summer convection. Runoff c. 20% of the rainfall, in line with high evaporative losses and dry soil conditions.

Sunshine data temporarily absent following installation of new sensors.

The Eddleston Water Project

Funded by the Scottish Government, Interreg and the Scottish Environment Protection Agency (SEPA), this project aims to reduce flood risk and restore the Eddleston Water for the benefit of the local community and wildlife.

The project involves river re-meandering, the planting of over 300,000 trees and the creation of new wetlands. This should slow the speed and impact of floodwaters as well as creating new wildlife habitat, such as improved spawning for salmon. Our project partnership is closely monitoring the results, including any reduction in flood risk for downstream communities.

The project is a partnership initiative led by Tweed Forum, with the Scottish Government, SEPA and University of Dundee. Other key partners include British Geological Survey, Nature Scot, Scottish Borders Council, the Forestry Commission, National Farmers' Union of Scotland, the Tweed Foundation, Forest Carbon and the Woodland Trust. Tweed Forum works closely with landowners and the local community so that everyone can contribute ideas and follow the project's progress.
