

COLLEGE OF LIFE SCIENCES DISCOVERY NEWS

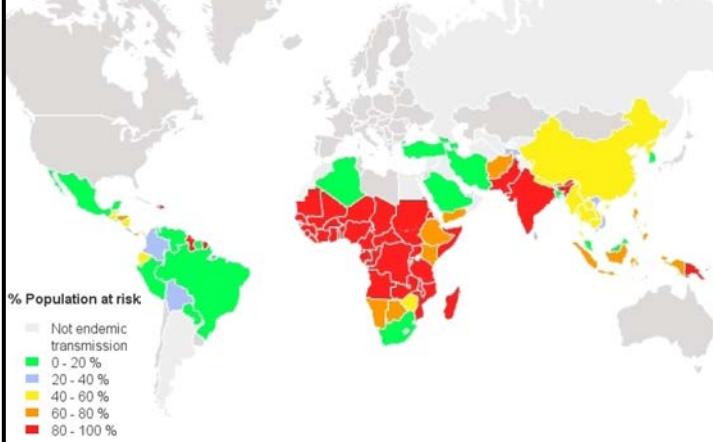

FROM THE UNIVERSE-ITY OF DUNDEE, ON THE BANKS OF THE SILVER TAY...

1ST EDITION - JUNE 2015

Researchers in
Dundee's Drug
Discovery Unit
identify a
possible cure
for malaria

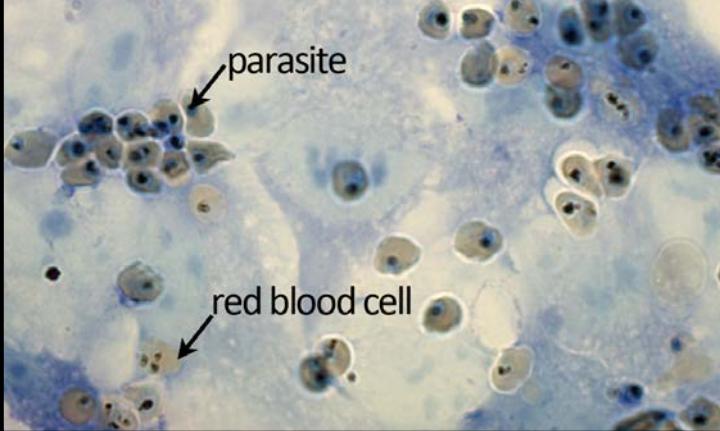

MALARIA IS A TERRIBLE DISEASE, IT IS
ESPECIALLY HARMFUL TO BABIES

IT IS SPREAD BY INFECTED
MOSQUITOES BITING HUMANS

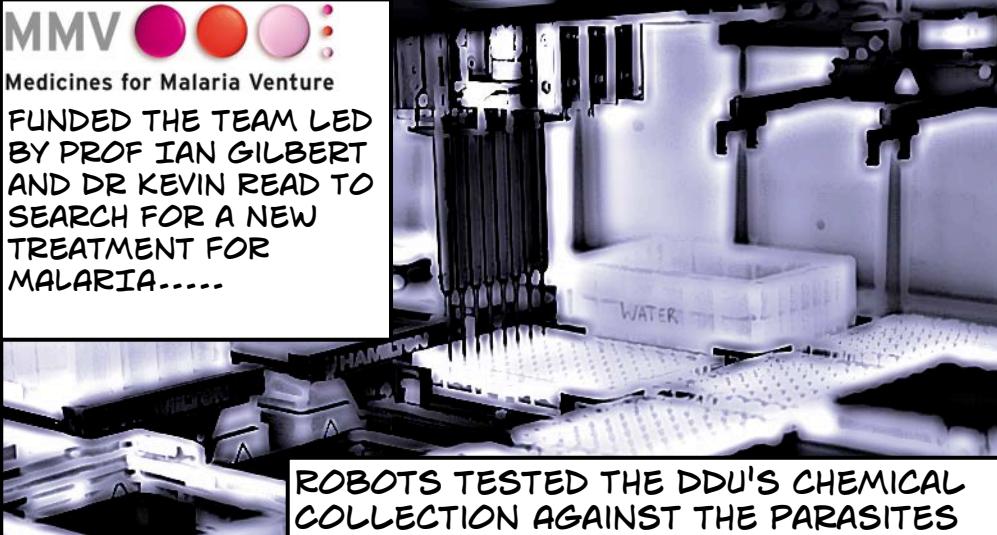

A SINGLE CELL PARASITE CALLED
PLASMODIUM CAUSES MALARIA

MMV
Medicines for Malaria Venture

FUNDED THE TEAM LED
BY PROF IAN GILBERT
AND DR KEVIN READ TO
SEARCH FOR A NEW
TREATMENT FOR
MALARIA.....

ROBOTS TESTED THE DDU'S CHEMICAL
COLLECTION AGAINST THE PARASITES
