Some musings for MUSES

James Wilson Deepdock Ltd Wales

How to translate a good theory into workable practice

Theoretical to Practical

Different approaches

1. Regulatory
2. Relationship

Risk: any uncertainty that, if it occurs, would affect one or more objectives	
Threat: any uncertainty that, if it occurs, would affect one or more objectives negatively	Opportunity: any uncertainty that, if it occurs, would affect one or more objectives positively

Different contexts will probably result in different outcomes
