SCANNERS VIDEO CATALOGUE.....From LVA & the AIR Gallery.

SCANNERS is a sixty minute VHS videocassette produced by LVA as the catalogue to the recent exhibition at the AIR Gallery.

The tape features interviews, short artists' video pieces, documentation of the multi screen VIDEO WINDOW BOX, and a selection of short 'Video Postcards'. The artists featured include KEVIN ATHERTON, ROSE FINN KELCEY, BRETT TURNBULL, THE DUVET BROTHERS, JUDITH GODDARD, MICK HARTNEY, KATE MEYNELL, MINEO AAYAMAGUCHI & JANUSZ SZCZEREK.

".....this catalogue is one of the best features of the show. The production values are not those of broadcast television, but the mix of interviews, extracts and information is sharply paced and thoroughly appropriate for the exhibition."

John Wyver. New Statesman.

" Ingenious catalogue for the current international video art exhibition.....no boring tome of artists' C.V.'s this, but a lively and accessible guide to the medium itself, to the work and the artists involved. "

Andy Lipman, City Limits.

" Compiled and edited in record time, this documentary tape has been released to coincide with the one month long video show at the AIR Gallery. Opening with a brief sketch of Soho streetlife, Scanners features clips by leading video makers such as Brett Turnbull, as well as various interviews and mini features....Made with the style and panache we've come to expect from LVA, this is a highly informative and rewarding production."

Phil Hayward. L.A.M.

Production team: Paul Mellor, Deborah Schneider, Valerie Magasi, James Gormley, Jane Parish.

Produced and edited by Jeremy Welsh. An LVA Production.
