Dear Stephen Partridge

Thank you for responding to the TIME CODE initiative.

We are considering your proposal alongside the others that have been submitted, and a short list of projects will be discussed with representatives of the other participating television stations in Brussels at the end of October. I hope to be able to come back to you shortly after that with a response to your proposal.

Thank you again for sending it in.

Yours sincerely

RCA Stoneman.

Dear Stephen Partridge

Thank you for submitting your ideas for a project in response to the TIME CODE initiative.

The projects from each country for the final programme were determined at discussions with the other participating television stations in Brussels recently, and I am sorry to have to let you know that yours was not chosen.

Although your project was not chosen for TIME CODE, I am interested to pursue the possibility of Channel Four producing a short project with you anyway. I would suggest we meet on January 7th or 12th - please get in touch with Julia Simpson to confirm.

I should also mention that John Wyver is producing a series of new video pieces (12 minutes long) which will "explore the expressive potential of television" next summer, and we have discussed your project as a possibility for this slot as well.

Thank you again for suggesting your project to us.

Yours sincerely

RCA Stoneman
