

'Swings' Serpentine Gallery London '78

- Tina What did you think of the 'Swing Video Installation' at the Serpentine Gallery ?
- Emily I thought it was very clever when the video was in the swing and you could see yourself in the television screen when you were swinging.
- Tina What I liked, was that both children and adults used the swings without being inhibited.
- Emily What does inhibited mean ?
- Tina Shy.
- Emily I thought it was funny when the gallery guards kept telling the people not to go on the swings, and you got very angry with him
- Tina Laughs.
