

PROPOSAL FOR WEEK LONG VIDEO EVENT → DRAFT

Event to occupy space minimum of 10m X 15m.

Will consist of playback of tapes previously prepared and the inter-action of visitors/equipment/artists, this functioning such that there would be continuous activity within the space.

May involve the collaboration or secondment of the national broadcast television.

Equipment required;

Playback - Sony AV3243 Portapak or AV3670 studio deck. Portapak preferable but in either case together with equipment necessary for the playback of previously prepared tapes.

'Live' events equipment - any manufacturer's/dealers system will do though obviously the above ~~system~~ manufacturer would be preferred. If this is not available then any Close-Circuit that is compatible and interchangeable within itself.

Whatever this is, it should include the following items;

- Display Monitors of about 50cm picture diagonal - TWO
- Studio type cameras on rolling spider/dolly - THREE
- Videotape Recorders, must be identical - TWO
- Switchbox for cameras - ONE
- 16mm Projector + Telecine adaptor - ONE each
- Lighting equipment (if necessary) -
- Tape for VTR - FOUR hours minimum.

This schedule has been prepared by Mike Leggett and indicates his requirements. It is intended that the time period will be shared with another person.
