

## AM12 Summary

# Summary of Changes:

*\*Please see training slide "SOPHIST Training Presentation 2-Identifying Participants & Eligibility Criteria V2 13-11-25" for further details*

Stage	Activity	Change
Eligibility	Participant Identification/pre-screening	Secondary care in-patient and out-patient services can be utilised
Eligibility	Inclusion criteria	Criteria added to help identify those at higher risk of having undiagnosed heart failure
Randomisation	Inclusion criteria	Updated to include those at higher risk of having undiagnosed heart failure.

## Site Action:

- **Re-screen participant data, including those previously excluded**
- **Research teams can utilise the following secondary care services to identify potentially eligible trial participants:**
  - **Diabetes, Cardiovascular, Diabetic foot, Nephrology, Ophthalmology**
- **Local Diabetes or Heart Failure databases if prior consent has been given eg NHS Research Scotland Diabetes Network, Diabetes Research Register, SHARE**
- **Primary Care and Clinical Care Networks**
